

Assistive Technology List Support Coordination

This form is used by Support Coordinators to record the Assistive Technology (AT) for a participant as each service agreement is established or AT is purchased. The information is used to plan and budget servicing for current and future NDIS Plan funding, as a reference for where to go for servicing/repair and may be an addition to the end of plan report. Refer to NDIS Assistive Technology, Home Modifications and Consumables Code Guide for information relating to AT.
